

SET-Plan, National and Regional Initiatives on Energy Communities, PV Community Self Consumption, Flexible and Energy Positive Districts

on **18 June 2019, 9:00-13:00**, Scotland House, Rond-Point Schuman 6,
1040 Brussels, Belgium Brussels (Metro Station Schuman).

Registration: <https://forms.gle/vr462xsvTf6riqKv7>

The **National Stakeholder Coordination Group (NSCG)** of the ETIP Smart Networks for the Energy Transition is a **sounding board and exchange platform for national R&I stakeholders in the area of smart energy systems and networks**, enabling them to contribute actively to the European SET-Plan Action 4 and the implementation of its Implementation Plan. The NSCG addresses *national R&I policy makers, R&I funding program managers, key research institutes* (typically members of EERA), *R&I platforms* (“Technology Platforms” or similar – typically consisting of grid operators, technology providers, R&D-institutes) and *experts from regulators*.

In former meetings, we exchanged about the innovation landscape in European countries as well as on the EU SET-Plan level, discussed the governance and cooperation between different groups within SET-Plan Action 4 and beyond and initiated collaborative work on actual topics like regulatory sandboxes.

In the light of the latest EU directives, questions of developing energy communities, community self-consumption and energy positive districts have gained interest and dynamic. The upcoming meeting of the NSCG will bring together the following **SET-Plan Initiatives** in order to provide networking opportunities and support creating synergies with national and regional stakeholders and projects:

- Stakeholder Initiative on PV Community Self Consumption (Supported by SET-Plan Action 4 Member States Working Group, ETIP PV, Solar ERA-Net, JPP ERA-Net Smart Energy Systems)
- Task Force on Energy Communities (Supported by BRIDGE, SET-Plan Action 4 Member States Working Group, JPP ERA-Net Smart Energy Systems)
- Initiative on Flexible or Energy Positive Districts (Supported by SET-Plan Action 3.2 Member States Working Group, JPI Urban Europe)

The meeting addresses particularly **national and regional initiatives, demo projects, living labs, etc.** in these fields as well as members of the above listed SET-Plan initiatives.

Target groups:

- Policy Makers and Funding Agencies
- Researchers
- Technology platforms
- Technology providers
- Future operators of energy communities

In order to enable and speed up collaboration, a first collection of initiatives in a case book has been started. **Initiatives that are interested to be taken up in the case book**, to be presented at the meeting, please contact hemma.bieser@avantsmart.at. Contributions to this case book can be made by filling the template that can be downloaded from EXPERA under the following [link](#) in the folder "Use Cases PV Self Consumption". Filled templates can be uploaded to the same folder and will be considered to be included in the case book.

For the management of knowledge about **Energy Communities** (mainly Citizen Energy Communities in the sense of EU directive P8_TA-PROV(2019)0226 - Common rules for the internal market for electricity, an online workplace has been established at

Agenda

(Version 1.0, 05.06.2019)

Item	Speakers
09:00 – 09:15 Welcome by the chair, ETIP SNET and the EC	Marc van Stiphout, EC DG ENER (tbc) Nikos Hatziargyriou, Chair ETIP SNET (tbc) Michael Hübner, Chair National Stakeholders Coordination Group
09:15 – 09:45 Recap on Regulatory and Experimental Sandboxes Wrap-up of NSCG SNET initiative Report on ISGAN working group	Fernando Garcia (Co-Chair NSCG) Klaus Kubecko (Operating Agent ISGAN Annex 7)
<i>Energy Communities, Community Self Consumption and Energy Positive Districts</i>	
09:45 – 10:30 Energy Communities- Intentions and Expectations of the European Commission	Micolai Jasiak, EC Internal Market for Electricity and Gas (tbc) Jan Steinkohl, EC Renewables Department (tbc)

Item	Speakers
<p>09:45 – 10:30</p> <p>SET-Plan Initiatives</p> <p>Stakeholder Group on PV Community Self Consumption (MS Working Group SET-Plan Action 4)</p> <p>Flexible or Energy Positive Districts (MS Working Group SET-Plan Action 3.2)</p> <p>Task Force on Energy Communities (BRIDGE, ERA-Net Smart Energy Systems)</p>	<p>Hemma Bieser (Support SET-Plan MS WG 4) and Gaëtan Masson (ETIP PV)</p> <p>Hans-Günther Schwarz (Chair SET-Plan MS WG 3.2)</p> <p>Ludwig Karg (ERA-Net SES) and Leen Peters (Th!nk E)</p>
<p>10:30 – 11:00</p> <p>Coffee Break</p>	
<p>Interaction and Co-creation: “Need Owners and Solutions Providers”</p> <p><i>Catch requirements and develop measures to meet those requirements. Needs and measures can relate to information, communication, policy, regulation, research, networks, partnerships, structures, IT platforms ...</i></p>	
<p>11:00 – 11:50 (parallel)</p> <p>Session: Catching requirements from Need Owners</p>	<p>e.g. existing citizen groups, city development initiatives, operators of virtual power plants, ...</p>
<p><i>Impulse 1.1:</i> Dirk Vansintjan, president of the European federation of groups and cooperatives of citizens for renewable energy at REScoop.eu</p> <p><i>Impulse 1.2:</i> Gunner Braun, Managing Director Landesgruppe Bayern of Association of Municipal Utilities <u>or</u> Cornelia Daniel, Energiezelle Liesing, Austria</p> <p><i>(Impulse 1.3)</i> Szymon Liszka, President of Polish Foundation for Energy Efficiency (FEWE) <u>or</u> Thomas Zeinzinger Lab10, Austria</p>	<p>Table Moderator: Hemma Bieser (Support SET-Plan MS Working Group Action 4)</p> <p>Table Moderator: Ludwig Karg (ERA-Net SES)</p> <p>Table Moderator: Klaus Kubecko (OA ISGAN Annex 7)</p>
<p>11:00 – 11:50 (parallel)</p> <p>Session: Catching requirements from Solution Providers</p>	<p>e.g. technology platforms, business incubators, research institutes, framework setters, ...</p>
<p>Impulse 2.1: Heidi Lenaerts, Account Manager Flux50 <u>or</u></p> <p>Impulse 2.2: Julia Singer (Ph.D.), Manager Funded Projects & Assistant to the CTO sonnen GmbH <u>or</u> Dr. Christian Chudoba, CEO Lumenaza GmbH</p> <p>(Impulse 2.3) Job Swens (presenting Schoonship and/or DeCeuvel)</p>	<p>Table Moderator: Leen Peters (BRIDGE Task Force)</p> <p>Table Moderator: Fernando Garcia (futured, Spanish Technology Platform Smart Grids)</p> <p>Table Moderator: Christoph Gollner (JPI Urban Europe)</p>
<p>12:00 – 12:45</p> <p>Matching the requirements of need owners and solution providers</p>	<p>Moderators: Hemma Bieser, Ludwig Karg, Leen Peters, Hans-Günther Schwarz, Christoph Gollner, Fernando Garcia</p>
<p>12:45 - 13:00</p> <p>Wrap-up by the chairs</p>
